

In readiness for the new golf season, please see communique from the Management Committee.

### **Competition Update**

- Preferred lies are in operation until 30th April inclusive.
- If a ball hits the ropes or stakes around the greens, the shot can be retaken without penalty with the agreement of playing partners present.
- A ball being infringed by the ropes or stakes may be moved no closer to the hole within a club length for no penalty.
- A ball in the bunker may be moved one club length, no nearer the hole.
- Players are reminded not to touch the ropes, posts or flag sticks at any time.
- Competition cards can be collected from the rear of the ball machine.
- The Brook Cup (17/4/21) and gents Medal 8 (27/6/21) competition dates have been swapped.

### **Practise Facilities**

- The practise range and practise putting green can be used by members. However, you should use and collect your own golf balls. The chipping area remains closed.
- There is evidence that balls are being deliberately hit into the fields adjacent to the practise range, from an area behind the clubhouse. Members are reminded that all play on the practise range should be from the designated area.

### **Green Keeping**

- From Monday April 12 2021, for an initial 2 month trial, the first tee off time on Mondays will be moved from 7.30 am to 8.00 am.
- Litter, divots and pitch marks are increasing on all areas of the course. At present only members are using the club. Please ensure you take your litter home, you repair your divots and you repair pitch marks.

### **Website**

- The Committee would like to modernise the Club website. Any member who has experience in web design and is willing to help please contact the office.
