Powfoot Golf Club Social Media Policy

Powfoot Golf Club uses social media to engage with members, visitors, and the wider golfing community. While we encourage open conversation and sharing the enjoyment of golf, all members, staff, visitors, and committee members are expected to uphold the Club's values both on the course and online.

Guidelines for Online Conduct

- **Respect Others:** Do not post content that is defamatory, abusive, discriminatory, or harassing toward staff, volunteers, committee members, or other golfers.
- **Protect Confidentiality:** Confidential club matters, internal committee discussions, and personal data belonging to other members must not be shared on public platforms or private messaging groups.
- **Safeguarding & Privacy:** In line with our Safeguarding Policy, identifiable images or videos of junior members (under 18) must not be shared online without verified parental consent.
- **Constructive Feedback:** Concerns regarding course conditions, competitions, or club management should be raised directly with the Club Manager/Secretary rather than debated publicly on social media.

Enforcement

Powfoot Golf Club reserves the right to remove inappropriate comments from its official pages and to block users who breach these guidelines. Serious or repeated breaches by members will be addressed under the Club's Disciplinary Policy.
